**WSS SOUTHAMPTON ANNUAL SOLENT TRIP - SHIP LIST - 2017**

No.	IMO No.	Ship's Name	Built	Gt	Dwt	Type	Flag	Date	Location
-----	---------	-------------	-------	----	-----	------	------	------	----------

Where an IMO bears a suffix of \*, this indicates that the final digit has been calculated and is not from an official source.

Where a GT bears a suffix of \*, this indicates a displacement tonnage.

Where an entry is in *italics* then this indicates that we have not been able to confirm entries in Lloyd's Registers or they are naval or ancillary vessels. *Italics* are also used for subsequent sightings of a vessel during the trip at either a different location, or on a different date.

Codes as similar to those that were as used in the late lamented Lloyd's Shipping Index published by Lloyd's MIU up to 2012 and are acknowledged as such.

The content has been researched from authoritative sources (principally Lloyd's Register's of Ships - published by the Lloyd's-Fairplay Group; and various web sites including Equasis). Again full acknowledgement is made.

Thanks also to David Hornsby, for organizing my transport from Ocean Village, to Neil Richardson for all his help with AIS, which is a most valuable asset when compiling these lists, and to the Andrew Hogg for his organization of the WSS Southampton trip.

Some lists produced may only cover ships seen on a particular date, but the date column is retained on such lists for uniformity.

Please note this list is produced for non-commercial use of shipping enthusiasts only. No responsibility is accepted for any errors or omissions or their consequences. Apologies are offered to the authors/publishers of any sources used for reference purposes but not specifically acknowledged above.

This list is not exhaustive and only contains details of ships sighted by the compiler.

ALI CAT's route for the day as shown on the ShipAIS website, acknowledgement is due to the owners of that site and John Ambler who uploads his data to them, and of course, Neil Richardson.
