Notes									

Where an IMO bears a suffix of *, this indicates that the final digit has been calculated and is not from an official source.

Where a GT bears a suffix of *, this indicates a displacement tonnage.

Where an entry is in *italics* then this indicates that we have not been able to confirm entries in Lloyd's Registers (or similar authoritative sources). *Italics* are also used for subsequent sightings of a vessel during the trip at either a different location, or on a different date.

Codes as similar to those that were as used in the late lamented Lloyd's Shipping Index published by Lloyd's MIU up to 2012 and are acknowledged as such.

The content has been researched from authoritative sources (principally Lloyd's Register's of Ships - published by the Lloyd's-Fairplay Group; and various web sites including Equasis and Marine Traffic). Again full acknowledgement is made. Other members of the World Ship Society and Solent Maritime have contributed information for which the compiler is grateful and acknowledges with thanks in particular Neil Richardson, David Walker, Krispen Atkinson, and Phil Simons (for assisting in resolving identification issues). Also our thanks go to Andrew Hogg and the Committees of the Southampton Branch of the WSS and the TSS for their again professional organisation and arrangement of the trip and to the Captain and Crew of the SOLENT CAT who made us most welcome and put much effort and co-operation into making our day a resounding success - and thank you all for your company.

Some lists produced may only cover ships seen on a particular date, but the date column is retained on such lists for uniformity.

Please note this list is produced for non-commercial use of shipping enthusiasts only. No responsibility is accepted for any errors or omissions or their consequences. Apologies are offered to the authors/publishers of any sources used for reference purposes but not specifically acknowledged above.

This list is not exhaustive and only contains details of ships sighted by the compiler. This year the list excludes Red Funnel ferries as I had noted them on the previous day on a crossing to East Cowes.

The trip followed the usual route from Town Quay up to the DP World container berths, viewing cruise ships, a car carrier and the arrival of a bulker before we headed down for a look at the tankers at Fawley. Next we made for the St. Helen's Anchorage and a closer view of the vessels at the Nab Inner Anchorage, passing several ships on the way. A tour of Portsmouth Harbour enabled us to glimpse the sad view of several Type 23 frigates awaiting disposal before we returned to Town Quay, passing a couple of the Saturday evening cruise vessels in Southampton Water. All in all, it was a good day with pleasant weather and company to match. Thank you everyone.

Hope to see you all again for next year's trip.
